

Citrus Junction as the name suggests is inspired by age old Indian railways and the pivotal role railways played in the lives of Indian people. The restaurant concept has been designed around the lives of old-age luxury trains with their elaborate dining cars, serviced by the very best of chefs and interior butlers. The interior decor of the restaurant reminisces the old carriageways, their private cabins, their exposed ceilings, their banana teak door, and their exclusive use of brass.

Citrus Junction is the all-day dining brassiere with interactive world cuisine- Japanese, Oriental, Indian, Middle Eastern cuisines. You can walk into Live stations and bespoke your own food. Led by the talented cuisine specialist, using the freshest and finest authentic ingredients, our focus is on farm-fresh produce with healthy dining options, most of our food is cooked 'a la minute'. Chaffers are select encouraging small quantities of advanced cooking on the buffet. Breads, pizza and breakfast rolls are all cooked 'a-la-minute' and served from our restaurants live ovens.
